Lisa Newburger, L.I.S.W.-S  
Health and Wellness Educator  
Discuss Directives, LLC

Dear Lisa:

Thank you for sharing your expertise with our members during our September Chapter Meeting. You provided us a humorous, yet serious look at our role in the end-of-life decision making. You gave us an opportunity to explore how advance directive wellness programs can decrease emotional and financial costs to our company while also sharing the focus on our own family.

I appreciate your follow up in providing the group the necessary advance directive forms as well as an explanation of the steps involved in the completion.

On behalf of the Medina SHRM Board and our attendees, thank you again for making this month's chapter meeting a success. The program provided our group information to assist them professionally, yet also personally, which makes it a win-win for everyone!

Regards,

*Kelly A. Davis*
